

Safeguarding Children  
**Toilet Access Policy**

Peachtree Pre-school is committed to safeguarding children, ensuring all staff and volunteers receive clearance by the Criminal Records Bureau before accompanying any child into the toileting area or supporting with any personal care routines.

Parents are requested that when volunteering within the setting or dropping off or collecting children, they refrain from entering the toileting/changing area where other children may be present. Should you wish to accompany your child to the toileting/changing area, please alert a member of staff, who will ensure that it is suitable for you to do so.

We hope you understand that these guidelines are in place to protect and safeguard all the children in our care.
